

**You will need:**

- Clear or green plastic soda bottle (20oz or smaller)
- Construction paper, cardstock or cereal box
- X-Acto knife or utility knife
- Markers or paint
- Scissors
- Glue

Optional: beads, seeds, yarn, buttons

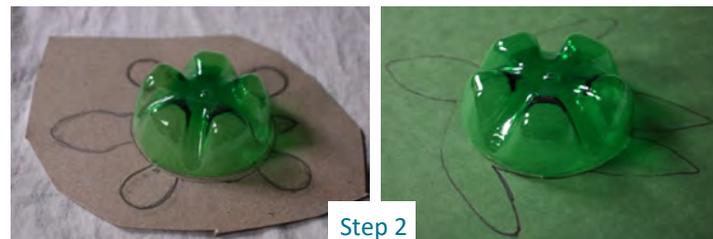

In honor of Earth Day, we have 5 easy projects you can do with plastic bottles. Make sure you check out the others.

**Directions:**

1. Cut off the bottom part of the bottle.

2. Place bottom on a piece of construction paper, cardstock or cereal box and trace the circle and draw the head, legs and tail. Or you can draw the head and fins of a sea turtle!

3. Cut out turtle and paint if needed.

4. Glue bottom of bottle to the turtle.

**Optional:** You can add beads, seeds or whatever you want in the bottle bottom and then glue the turtle to the bottom.

5. Decorate however you want!
