

You will need:

- Paper plate or white cardstock
- Black, gray and white construction paper
- Black or white chenille sticks (pipe cleaners) or yarn
- Popsicle stick or jumbo craft stick
- Scissors
- Glue

Directions:

1. Cut out a small heart out of black construction paper, a large heart out of gray construction paper and 2 flippers out of white construction paper. Or use any color you want your seal to be!
2. Flatten out your paper plate as much as possible. No paper plate, just trace a small dinner plate onto white cardstock. Glue mouth, nose and flippers onto the plate/paper circle.
3. Using a soda bottle cap, trace 2 circles where the eyes will go and cut the eyes out.
4. Decorate your seal however you want. You can use pipe cleaners or yarn to make whiskers.
5. Glue a stick onto the back and take a pic with your new mask and tag the North Carolina Zoo at #NCZOO or #NCZOOED!
